## LANGUAGES

Spanish: Native

English: Professional (B1)

# Estefania Bermudez Alvarez

Semi-Senior Front-End Developer specialized in **React, Next.js and React Native**, with experience building modern, scalable and user-centered web and mobile applications. I have worked in startups, tech projects and as a freelancer, participating in the full software development lifecycle using agile methodologies. I also have a solid understanding of backend fundamentals and databases, allowing me to collaborate effectively across teams.

## EXPERIENCE

### Freelance Web & Mobile Developer

#### Freelance | May 2025 – Present

- Developed web and mobile interfaces from requirements analysis to UI/UX implementation.
- Built responsive applications and integrated external APIs.
- Worked directly with clients, proposing technical improvements and new features based on business needs.
- Managed multiple projects simultaneously, ensuring quality and timely delivery.

### Front End Developer

#### Medusa Lab AI | July 2024 – March 2025 | Medellín, Colombia

- Developed web frontend applications from scratch using React, Next.js, TypeScript, Astro and Tailwind CSS.
- Built reusable components and implemented responsive design following UI/UX best practices.
- Contributed to performance optimization and user experience improvements.
- Developed mobile applications using Ionic Framework and Android SDK.
- Collaborated with multidisciplinary teams following agile methodologies.

### Developer Trainee

#### Byte4Bit | March 2023 – July 2024 | Medellín, Colombia

- Developed frontend features using React, Next.js and TypeScript.
- Integrated APIs using GraphQL.
- Automated end-to-end tests with Cypress.
- Managed version control using Git and GitHub.
- Collaborated in agile project management using ClickUp and participated in client progress meetings.
